

Information Literacy

As a student of the Delft University of Technology you will conduct research and write papers with a solid scientific underpinning. Beyond Google and Google Scholar, the library offers a vast collection of information resources to help you with this.

The online course Information Literacy 2 will help you discover what there is to learn about information skills:

- Define your information needs.
- Select the best, reliable information resources.
- Define your search strategy.
- Evaluate your search results.
- Cite your sources correctly.
- Compile a literature list.

Please complete the course and make the **mandatory final test** in order to develop your skills to the required level!

If you have any questions, you can contact the Library Education Support team (educationsupport-lib@tudelft.nl).

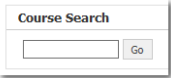

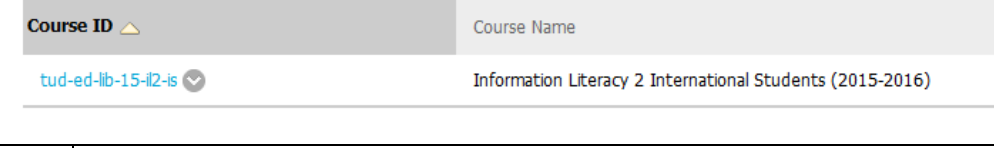

In advance

Please, use the browser Firefox or Chrome. The final test doesn't work properly in Internet Explorer.

If working from home:

Access to certain parts in this course is limited to the IP-range of the TU Delft campus. In order to gain access from outside the campus, you need to download and install the VPN client software: <http://studenten.tudelft.nl/en/students/ict/ict-facilities/virtual-private-network-vpn/>

How to start?

1	Go to Blackboard (http://blackboard.tudelft.nl) and log in with your Net-ID;	
2	Go to "Courses" (use the tab in the upper part of the screen) and fill in "information literacy 2 international students".	
3	You will get the following result:	
4	Choose the instruction <i>Information Literacy 2 International Students (2015-2016)</i> , click on  and  to enroll	
5	You are now on the introduction page. Here you will find explained what you have to do.	

Afterwards

We really need your feedback! Please fill in the online evaluation form so we can evaluate this instruction. This instruction will be available during this academic year, so you can always check it again when working on other assignments.

Good luck!
