

Information Literacy

As a student of the Delft University of Technology you will conduct research and write papers with a solid scientific underpinning. Beyond Google and Google Scholar, the library offers a vast collection of information resources to help you with this.

The online course Information Literacy 2 will help you discover what there is to learn about information skills:

- Define your information needs.
- Select the best, reliable information resources.
- Define your search strategy.
- Evaluate your search results.
- Cite your sources correctly.
- Compile a literature list.

Please complete the course and make the **final test** in order to develop your skills to the required level!

If you have any questions, you can contact the [Library Education Support team](#).

In advance

Access to certain parts in this course is limited to the IP-range of the TU Delft campus. In order to gain access from outside the campus, you need to download and install the [VPN client software or Access anywhere via Library Access extension](#).

How to start?

1	Go to Brightspace (https://brightspace.tudelft.nl) en log in with your Net-ID (possible from 2 August 2021)
2	Go to "Catalog" (use the tab in the upper part of the screen) and search for International Students Information Literacy 2
3	You will get the following result:
	
Right is the name of the course	
4	Click on the logo of the course ((make sure you choose the right program!))
5	Click on Log in of the text "Log in to enroll"
6	Click on "Enroll"
7	Click on "Launch course"
8	You are now on the start page of the course International Students Information Literacy 2 (2021/22 Q1) . Click on "Content" (use the tab in the upper part of the screen) to start.

Afterwards

We really need your feedback! Please **fill in the online evaluation form** so we can evaluate this instruction. This instruction will be available during this academic year, so you can always check it again when working on other assignments.

Good luck!
